

Outer Drive – Buena Vista Township

The Saginaw County Road Commission will be using Federal Stimulus money to reconstruct a portion of Outer Drive between Hess Road and Perkins Road within Buena Vista Township. The \$1.9 Million project involves complete reconstruction of the roadway including new sand, stone, asphalt, and curb and gutter. The lane assignments throughout the project will remain consistent with current geometry including 4 lanes wide for the majority of the project, 5 lanes at the M-46 intersection, and 3 lanes at the very northern limits.

Construction of the project is scheduled to start in mid August with construction being complete by mid November. Although traffic is encouraged to seek an alternate route, construction will be done 2 lanes at a time allowing traffic to still utilize the roadway to access local residences, businesses, and to allow emergency vehicle access.

Design of the project was completed by Wilcox Professional Services here in Saginaw Michigan.
